

Chidinma Mmahi - Frontend Software Engineer

Lagos, Nigeria (Open to Remote) | mmahichidinma336@outlook.com | 08114910021

GitHub: <https://github.com/ChidinmaMmahi> | LinkedIn: <https://www.linkedin.com/in/chidinma-dev/>

Professional Summary

Frontend Software Engineer with hands-on experience building and maintaining production web applications using React, TypeScript, and Tailwind CSS. Experienced in shipping user-facing features, working with modern data-fetching patterns, and collaborating effectively in fully remote teams. Strong computer science foundation with a focus on clean architecture, performance, and scalable UI development.

Experience

Software Engineer

Seadans Solutions — Remote

July 2025 – Present

- Built and maintained user onboarding flows, ensuring a smooth and intuitive experience for new users.
- Developed scalable frontend features using React, TypeScript, and Tailwind CSS, integrating backend services with TanStack React Query.
- Implemented feature flags to safely roll out new functionality and reduce deployment risk in production.
- Contributed to a shared internal component library, improving UI consistency and development efficiency.
- Wrote unit and integration tests to improve reliability and long-term maintainability.

Frontend Developer

Supreme Option Technologies — Remote

May 2025 – June 2025

- Developed responsive and performant user interfaces using React, TypeScript, and Tailwind CSS.
- Integrated GraphQL APIs to display real-time economic and market data within dashboards and insight pages.
- Worked across multiple product areas, contributing to user-facing features and internal tools as needed.
- Participated actively in code reviews and maintained clean version control workflows with Git.

Frontend Developer Intern

Seadans Solutions — Hybrid

November 2023 – April 2024

- Contributed to Terrachain, a platform addressing rental challenges for immigrants.
- Built responsive UI components for property listings, virtual tours, and credit assessments using React and Tailwind CSS.
- Collaborated with the team using Git, ESLint, and Prettier to maintain code quality and consistency.

Selected Projects

- **Multi-Step Form System** – Complex multi-step React + TypeScript form with Zustand state management, validation, persistence, and responsive UI.
- **Crypto Dashboard** – Real-time crypto market dashboard using React Query, infinite scrolling, and data visualization.
- **Draftroom (In Progress)** – Browser-based document tool for merging multiple files and exporting customized PDFs.
