Technical Skills

- **Languages & Frameworks:** React, TypeScript, Tailwind CSS, HTML, CSS, JavaScript
 - **API & Data:** TanStack Query, REST APIs
 - **UI Libraries:** Chakra UI, Ant Design
 - **Tools & Processes:** Git, Feature Flags, Unit & Integration Testing, Agile Workflow
 - **Other Skills:** Remote collaboration, code review, problem-solving
-

Experience

Software Engineer

Seadans Solutions — Lagos, Nigeria (Remote)

May 2025 – Present

- Developed and maintained web onboarding features for users, ensuring a seamless and intuitive experience.
- Built front-end interfaces using React, TypeScript, and Tailwind CSS, integrating with APIs via TanStack Query.
- Implemented feature flags to manage rollout of new functionalities and reduce deployment risks.
- Utilized an internal component library for consistent UI design and enhanced development efficiency.
- Wrote unit and integration tests for front-end components to ensure reliability and maintainability.
- Collaborated with team members through Git version control, reviewing and merging code to maintain high-quality standards.

Frontend Developer

Supreme option technologies — Lagos, Nigeria (Remote)

January 2025 – June 2025

- Developed responsive UI components using React, TypeScript, and Tailwind CSS, ensuring consistency and high performance.
- Integrated GraphQL APIs to deliver real-time data insights and improve the accessibility of economic and market intelligence tools.
- Implemented feature flags to safely roll out experimental or incremental product updates.
- Collaborated with engineering and data teams using Git, participating in code reviews, merging PRs, and maintaining clean version control workflows.
- Worked cross-functionally, contributing to multiple areas of the platform, including user dashboards, insight pages, and internal tools – depending on the team's needs.

Frontend Developer Intern

Seadans Solutions — Lagos, Nigeria (Remote)

September 2024 - December 2024

- Contributed to the development of Terrachain, a platform addressing rental challenges for immigrants, leveraging React, JavaScript, Tailwind CSS.
- Built responsive UI components for key features like property listings, virtual tours and credit assessments, ensuring high-quality user experiences.
- Worked with the team to implement real-time notifications, digital contracts, and automated lease renewals, reducing operational complexity for users.
- Collaborated with a team using version control systems like Git and followed best practices for code quality, including linting and formatting with ESLint and Prettier.
- HTML, CSS, JavaScript, Tailwind CSS, React, Git.

Secretary to The General Manager

Paulo Compu-Serve — Badagry, Lagos, Nigeria

January 2021 - January 2022

- Utilized excellent customer service skills to respond to inquiries from clients.
- Co-ordinated logistics for events such as conferences, workshops and seminars.
- Ensured compliances with company policies, procedures and applicable laws and regulation
- Developed strong relationships with internal staff and external stakeholders through effective communications.
- Multi-tasking, Creative thinking, Attention to detail, Problem-solving abilities, Teamwork and cooperation.

Education

Nnamdi Azikiwe University | 2019 — 2024

Bachelor of Science in Computer Science

- GPA: 4.0
- Relevant Coursework: Object Oriented Programing, Databases, Discrete Math, Data Structure and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advanced Data Structures and Algorithms, Information Retrieval, Image Processing
- Project: Designed and implemented an e-learning platform for computer science students to share course related materials between lecturers and students for all levels
